1. INTRODUCTION :

The Garage Management System is a valuable tool for automotive repair facilities, helping them deliver top-notch service, increase operational efficiency, and build lasting customer relationships. With its user-friendly interface and powerful features, GMS empowers garages to thrive in a competitive market while ensuring a seamless and satisfying experience for both customers and staff.

2. PROJECT OVERVIEW :

1.1 What is Salesforce?

Salesforce is your customer success platform, designed to help you sell, service, market, analyze, and connect with your customers.

Define a validation rule by specifying an error condition and a corresponding error message. The error condition is written as a Boolean formula expression that returns true or false. When the formula expression returns true, the save will be aborted and the error message will be displayed. The user can correct the error and try again.

creating records

The screenshot shows a 'New Customer Details' dialog box. It has a title bar with a close button (X). Below the title bar, there's a section labeled 'Information' with a sub-label '* Required Information'. The form contains three input fields: 'Name' with the value 'White', 'Phone number' with the value '(938) 496-1215', and 'Email' with the value 'gwen33054@gmail.com'. To the right of these fields is a 'Owner' field with a dropdown menu showing 'chrisna durso'. At the bottom of the form, there are three buttons: a warning icon, a 'Cancel' button, and a 'Save & New' button.

The screenshot shows the 'Customer Details' page for a customer named 'White'. The page has a header with a search bar and navigation tabs: 'Customer Details', 'Appointments', 'Service records', and 'More'. The main content area is divided into two sections: 'Related' and 'Activity'. The 'Related' section shows the customer's details: Name (White), Phone number ((938) 496-1215), Email (gwen33054@gmail.com), Created By (chrisna durso, 9/10/2025, 9:51 AM), and Last Modified By (chrisna durso, 9/10/2025, 9:51 AM). The 'Activity' section shows a list of activities with filters: All time, All activities, All types. Below the filters, there's a section titled 'Upcoming & Overdue' which states 'No activities to show' and 'Get started by sending an email, scheduling a task, and more.' At the bottom, it says 'No past activity. Past meetings and tasks marked as done show up here.'

New Lightning App

App Details & Branding

Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar.

New Lightning App

Navigation Items

Choose the items to include in the app, and arrange the order in which they appear. Users can personalize the navigation to add or move items, (users can't remove or rename the items that you add). Some navigation items are available only for phone or only for desktop. These items are dropped from the navigation bar when the app is viewed in a format that the item doesn't support.
